Scope of Privacy Policy

This policy applies to your use of this site. This policy does not apply to your use of unaffiliated sites to which this site only links.

Personal Identification Information

We may request personal identification information from you (such as your last name, business, phone, address) in connection with your use of, or participation in registration for surveys, forums, content submissions, chats, bulletin boards, discussion groups, requests for suggestions, or additional information, and in connection with other activities, services or resources we make available on any of our website. In all of these cases, we will collect personal identification information from you only if you voluntarily submit such information to us. Except as otherwise provided in this policy, we reasonably endeavor to ensure that we never intentionally disclose any personal identification information about you as an individual user to any third party without having received your permission (through opt-in or similar procedures) except as provided for herein or otherwise as permitted or required under law. Further, WaterPulse may contact you
based on the information you provide online whether in connection with your registration or in such places as the above described forums.

If you do provide us with personal information for any of these activities, we may use it to conduct the activity.

WaterPulse does not rent or sell personal identification information to outside marketers. In certain circumstances, WaterPulse may share personal identification information with trusted service providers that need access to your information to provide operational or other support services or we may share this aggregate statistical information with other third parties; to ensure the confidentiality and security of this information, service providers must agree to safeguard all information in strict compliance with our policy. We may also provide information to regulatory authorities and law enforcement officials in accordance with applicable law or when we otherwise believe in good faith that the law requires it.

Non-Personal Identification Information

We may collect non-personal identification information without limitation, through the use of the following types of methodology:

- **"Cookie" technology**: A "cookie" is an element of data that a website can send to your browser, which may then store it on your system.

- **"IP address tracking"**: An IP address is a number that is assigned to your computer when you are on the Internet. When you request pages from our Sites, our servers log your IP address.

- **"Web beacons"**: A Web beacon, or "clear gif," is a small graphic image on a webpage or web-based document that a website can use to determine information about a user.

Non-personal identification information might include the browser you use, the type of computer, technical information about your means of connection to our websites (such as the operating systems and the Internet service providers utilized), and other similar information. Our systems may also automatically gather information about the areas you visit and search terms you utilize on our website and about the links you may select from within our website to other areas of the World Wide Web or elsewhere online.

We use such information for our business purposes, and, in particular, primarily to administer the website, and, in the aggregate, to what technologies are being used so that we may continually improve our Sites.

“Do Not Track” Disclosures

Our website honors your browser security and privacy settings. For some browsers, you can change and turn off tracking features and other security settings in your browser.

In addition, Google Analytics offers an Opt-out Browser Add-on. Google provides a free add-on to most major browsers that you can install to prevent your data from being collected and used by Google Analytics. Privacy of Children

We are mindful that young people need special safeguards and privacy protection. We realize that they may not understand all the provisions of our policy or be able to make thoughtful decisions about the choices that are made available to our adult users. We strongly urge all parents to participate in their children's exploration of the Internet and any online services, and to teach their children about protecting their personal information while online.
